## 2025 - Acceptable Use Agreement (AUA)

### iPad General Use

- The iPad is supplied predominately for use by the student. They are responsible for all information and content on the device, which needs to fit within the AUA guidelines for ICT and the one2one program.
- The iPad will be managed at home via an Apple ID. We recommend setting up Family Sharing and utilising Parental Controls.
- The students should come to school each day with sufficient charge for the day's activities. Charging will not be an option at school.
- The iPad must not be left sitting on the ground, on a chair or left outdoors at any time. They should be left on tables or stored in tubs when not in direct use.
- The iPad will not be taken outside without the direct permission of a teacher during class time, recess or lunchtime.
- Staff have the right to look at any application or file on the iPad at any time.
- The school strongly recommends that when using the iPad at home it is used in a family or common area and not in the bedroom.
- The iPad should be backed up on a regular basis. We are recommending Thursday nights as back-up night. The back-up can be done wirelessly directly to iCloud. The iCloud back-up will only back up data, not applications.
- It is the parent's responsibility to insure the iPad. Most parents list it on their home insurance although other insurance policies are available. The Department of Education does not take responsibility for personal items.

### Apple ID

- (a) An Apple ID is necessary to download applications (software) to allow the iPad to function. Parents may choose to use an existing Apple ID or create a new one. It is not necessary to use credit card details for the creation of an account and strongly recommend not storing credit card details.
- (b) Parents/Legal Guardians should install the school recommended core educational apps from the iTunes Store.
- (c) By using the App Store a user agrees to be bound by the Terms and Conditions of Use that apply to the App Store.
- (d) A user is entirely responsible for maintaining the confidentiality of information held in the user's account, including the user's password and for any activity that occurs under the user's account as a result of failing to keep this information secure and confidential.
- (e) Additional applications purchased will be the responsibility of the Parent/Legal Guardian and reflect the behaviours promoted in the school Acceptable Use Agreement.
- (f) The school would highly recommend the use of Family Sharing, Parental Controls and Ask to Buy. This will enable parents to control the purchase of applications and set up restrictions on student devices.

## **iPad Restrictions**

We strongly suggest that you look at the content and privacy restrictions in Screen Time in the iPad Settings. You can also use Family Sharing to set up restrictions on your child's device remotely. You can block or limit specific apps and features on your child's device. You can also restrict the settings for explicit content, purchases, downloads and privacy. Support for parents is available on request to do this. Please see the QR codes below and following helpful link: <https://support.apple.com/en-au/HT201304>

## **12+ Software**

There are a number of applications, which have a 12+ rating on the App Store and for general use. Some of these are not to be on the iPad at any time, Facebook, Twitter, Instagram, Kik, Tiktok and Snapchat being the prime examples.

## **Responsibility for iPad**

It is the student's responsibility to ensure that the iPad is looked after. Like all personal items bought to school the school has no liability for damage or loss of any personal items bought to school. Each BYOi classroom has a lockable cupboard and classroom door for times when the students are not with or using the devices.

**Family Sharing**

**Parental Controls**
